## PROJECTS

---

### Maskbook

**PRODUCT MANAGER**

Post encrypted content on social media to avoid exploitation of big data and machine learning. Content types made richer.

### TesserPG

**PRODUCT MANAGER**

OpenPGP app for iOS and Android. The most welcomed OpenPGP app on App Store ever. Can interact with other apps as an input method.

### Kotomatsu

**DESIGNER**

Mysterious feline creature.

### Archiviation

**DEVELOPER**

Publish text files online over GitHub Pages but only visitors with certain share links can decrypt the contents.

See GitHub for more projects.
